

Bushfire Mitigation Hardship Policy

Purpose: To comply with Metro Trains Sydney's Hardship Policy Requirements under the Electricity Supply Act 1995

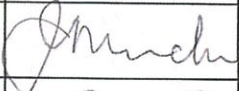

To achieve this objective, we adhere to the following principles:

- Metro Trains Sydney will not seek to recover the costs associated with Bushfire mitigation work undertaken by Metro Trains Sydney from the private land owners
- Should this requirement change, Metro Trains Sydney will submit a comprehensive policy including flexible payment options to IPART for approval should this require a change

Implementation:

This policy will be available to external stakeholders via the Sydney Metro website

Approval Record
